**Northeast Deciduous Forest Postage Stamps, Artist's Sketchbook,
Provide Vast Forest of Knowledge, Great Educational Tool**

NEW YORK – Students and families will have fun testing their “forest” of knowledge now that the Postal Service has issued the *Nature of America: Northeast Deciduous Forest* commemorative souvenir stamp sheet and *Artist's Sketchbook*. Family members can use the stamp sheet as an educational flash card to quiz each other, as the sheet's reverse side provides the common and scientific names of the 27 animals and plants pictured on the front. The 24-page *Artist's Sketchbook*, with stamp sheet included, is a must-have field guide that can be used while exploring the beauty of America's northeastern forests.

The first-day-of-issue dedication ceremony for the *Nature of America: Northeast Deciduous Forest* commemorative souvenir stamp sheet took place as part of the American Stamp Dealers Association's New York Postage Stamp Mega Event at New York City's Madison Square Garden today.

"Enthusiasts have collected stamps of birds, animals and beautiful natural landscapes from the earliest days of stamp collecting," said Henry Pankey, U.S. Postal Service Vice President, Emergency Preparedness, who served as the dedicating official at the event. "These ten beautiful stamps are vivid reminders that our nation's heritage is strongly tied to our land and our bountiful natural resources."

Joining Pankey at the ceremony were Elizabeth Pope, President, American Stamp Dealers Association; John Dawson, Artist, *Northeast Deciduous Forest Stamps*; Robert Davies, Director of Lands and Forest/New York State Forester, New York State Department of Environmental Conservation; and, David E. Failor, Executive Director, Stamp Services, U.S. Postal Service. Honored guests include Robert Lamb, Executive Director, American Philatelic Society; Vinnie Malloy, District Manager/Postmaster, New York District, U.S. Postal Service; and Joseph B. Savarese, Executive Vice President, American Stamp Dealers Association.

Both philatelic collectibles—the stamp sheet and the sketchbook—are available at the show and at select New York City Post Offices today, and nationwide at select Post Offices on Friday, Mar. 4. Orders also are being accepted online at the Postal Store on usps.com/shop.

Stamp artist John D. Dawson, who designed all seven stamp sheets in the *Nature of America* series, which debuted in 1999, autographed collectibles today and will be available Saturday, March 5, to autograph from 9:45 a.m. to 11:30 a.m. and from 1:30 p.m. to 3 p.m. The Mega Stamp event, which runs until March 6, is open from 10 a.m. to 6 p.m. today through Saturday and from 10 a.m. to 4 p.m. Sunday.

The Artist's Sketchbook

The Artist's Sketchbook is available for \$24.95 and includes the stamp sheet. This keepsake offers an excellent opportunity to obtain a picture perfect view of Northeast wildlife—in the wild—as illustrated by Dawson. He uses 24 pages to engage the reader on an imaginary walk in the woods while witnessing the beauty of nature. His artwork shows the transformation of sketches into stamp art that is enveloped into a larger portrait of the forest realm.

Beginning with the majesty of the Northern Red Oak and the complexity of the Eastern Buckmoth, onward to a confrontation with the Black Bear, and the near extermination of the American Chestnut, the reader gains insight into the beauty of the *Northeast Deciduous Forest* souvenir stamp sheet. It also provides a fun activity as stamps from the stamp pane can be placed on the appropriate page which features the stamp image, along with sketches and personal and educational commentary by Dawson. The designer of the *Artist's Sketchbook* is Greg Berger and the Art Director is Ethel Kessler.
