OSIRIS-REx
Mission to Asteroid Benu and Return to Earth

Depicting a seven-year mission

It took a while to find a direction for the OSIRIS-REx stamp design, says art director Antonio Alcala. He started by identifying just some ideas based on information about the mission he received from NASA. He liked the idea of a pair of images, together forming a sort of panorama showing OSIRIS-REx taking off, approaching Benu, and then returning to Earth. But the real use difference between the spacecraft and the asteroid made the image challenging to conceptualize. A subsequent meeting with NASA staff revealed that the mission had five important milestones: 1) using Earth's gravity to boost the spacecraft on its path toward Benu; 2) mapping the asteroid; 3) descending toward Benu; 4) collecting a sample of its surface; and 5) returning the sample capsule to Earth.

The Postal Service decided to represent the OSIRIS-REx mission with one stamp design. "Since USPS was planning to issue the stamp around the date of the sample return, that was the moment I chose to commemorate on the stamp itself," Alcala says. He worked closely with NASA to ensure that he was depicting the science just right. "Then, knowing that a single milestone couldn't communicate the whole mission," Alcala explains, "I created a collage design showing the first four."

NASA and its partners had produced a series of images and animations to illustrate the mission. So it was just a matter of choosing the best ones. Alcala provided those to illustrator Alex Orsman, who then created the artwork for the stamp and the pane.

John Lewis

John Lewis

A key figure in some of the most pivotal moments of the civil rights movement, Congressman John Lewis (1940-2020) was the face of the Nashville Student Movement, chairman of the Student Nonviolent Coordinating Committee, an original Freedom Rider, and one of the keynotes speakers at the historic 1967 March on Washington. Even in the face of hatred and violence, Lewis remained resolute in his commitment to what he called "good trouble."

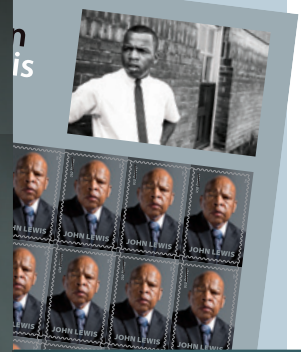

The defining moment of his life occurred on Sunday, March 7, 1965. He and about 600 others intended to march from Selma, Alabama, to the state capital in Montgomery. He and many others were arrested, but they were met with violence. Broadcast on television nationwide, the brutal response to their non-violent protest inspired a nationwide outpouring of support. It led to the landmark 1965 Voting Rights Act, which strengthened the federal government's ability to prevent state and local governments from denying citizens the right to vote because of race.

"The vote is precious — it is almost sacred," Lewis famously said. "It is the most powerful constituent tool."

"The vote is the most powerful nonviolent tool we have to make change in a democratic society, but one vote will not make all the change that is necessary. Change requires patient, persistent action."

— John Lewis, *Across That Bridge*

Honoring a civil rights hero

When art director Derry Noyes set out to create a stamp honoring civil rights icon John Lewis, she did not intend to use a photograph of him. However, she found one that changed her mind — taken by Henry Gans for the August 26, 2015, issue of *Time* magazine.

"His direct gaze and the dramatic lighting are so powerful," Noyes says. "The image evokes everything about the man. His resolve, inner strength comes through loud and clear."

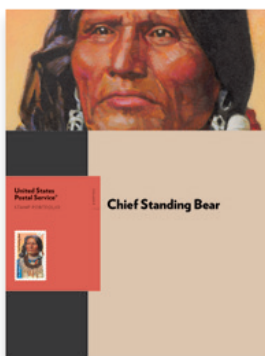

She also wanted to depict Lewis at a younger age to make clear his lifelong commitment to fighting racial oppression. "It was not easy to get that across with just one stamp," Noyes says. To really do justice to the challenge, she decided to use an older photograph of Lewis on the same subject (shown above). The image she chose was taken by Steve Schapiro in 1965, outside a workshop about nonviolent protest in Clarkdale, Mississippi.

John Lewis Stamp Portfolio

Commemorate the legacy of civil rights leader and U.S. Congressman John Lewis with this memorable keepsake. Inside, you'll read about the impact of Lewis's life and his steadfast work in Congress, defending and building on key civil rights gains of the 1960s. The portfolio also includes a custom cancellation card and a pane of 15 mint Forever® stamps.

Landing a mission-worthy design

FOR ART DIRECTOR ANTONIO ALCALÁ, it took time to find a direction for the *OSIRIS-REx* stamp, which aimed to depict the NASA mission to study and map the asteroid Bennu.

Conversations with NASA staff early in the design process revealed the mission had five important milestones. The Postal Service planned the stamp issuance around the final milestone — when a sample of the asteroid's surface would be returned to Earth — and Alcalá chose to commemorate that moment on the stamp itself. “Then, knowing that a single milestone couldn’t communicate the whole mission,” Alcalá explained, “I created a salvage design showing the first four.”

An additional design challenge was the scale of the spacecraft itself. “We needed to make the capsule large enough so that people could see it clearly on the stamp. At the same time, the parachute deployment would be much higher and so much larger than the capsule itself. Trying to capture all those elements in the stamp, as well as a sense of the landscape that it would be returning

to, was a bit complicated,” Alcalá recalled.

Alcalá worked closely with NASA to ensure his concepts depicted the spacecraft and mission accurately. Then, he set out to find an illustrator. The stamp design couldn’t be too fantastical because it needed to retain scientific integrity. “At the same time, we were looking for something that might give it a little something extra,” Alcalá added. He brought illustrator Alan Dingman into the project — a natural choice given his compelling art for science-fiction book covers.

The stamp and salvage art ultimately work together to convey the magnitude and importance of the *OSIRIS-REx* mission. Alcalá remarked, “It’s an honor to be able to commemorate NASA’s work with a stamp pane that helps the American public understand the agency’s amazing accomplishments.”
